VERHAERT NEW PRODUCTS & SERVICES : RENOWNED INNOVATION CENTRE

Verhaert New Products & Services is a renowned innovation centre that develops innovative products and systems for a wide range of sectors : industry, lifestyle, medical and public sector. As a laboratory for innovation, Verhaert accompanies the creative process at JORI. The two companies work together closely in order to develop new ideas that embody JORI's core values: design, comfort and durability. And the many years of collaboration between the two companies has clearly produced results, as shown by the patented design of the relax mechanism and the models Longueville, Chillap and Calypso.

Small differences may occur.
print date : 01.05.2023 / V1.0

YOUR PERSONALISED RECLINING CHAIR

One single movement

Back separately adjustable

Mono-move or Multi-move

With a JORI recliner, you can choose between a mono-move or a multi-move mechanism (with most models, both versions are available).

- The mono-move is the simplest to operate: the backrest and footrest can be adjusted continuously in a single movement. Simply sit down, activate the lever and lean back. The adjustment is made for you, with ease and comfort.
- With the multi-move, you can adjust the backrest and footrest separately. That way you can always adjust the way you are sitting so you can read, watch TV or simply relax.

Mini, Medi, Maxi

You can also tune the dimensions of the recliner to the length of your body. JORI offers 3 personalised versions: Mini, Medi & Maxi. Mini is extremely well suited to anyone under the height of 1.65 m (5'6"). Medi provides the best comfort for people between 1.65 m and 1.85 m (5'6" and 6'1"). Any taller and the Maxi should be your preference.
